INDEX TO VOLUME 50

Book Reviews and Obituaries are indexed under these headings in alphabetical order under the letters B and O, respectively.

Abell, M. R.

Hepatic necrosis induced by dietary means: biochemical changes occurring in liver during development of necrosis, 23

Hepatic necrosis induced by dietary means: Structural changes occurring in liver during development of necrosis, 1

Abnormalities and Deformities: See also under names of organs and regions, as Heart

in beaks of developing chick embryos: postmortem changes which may be confused with developmental anomalies, 676

Acid

amino: See Amino Acids

folic: See Folic Acid

pteroylglutamic: See Folic Acid

Adenine

effect on rats, 359

Adrenals

in cyclopia, 727

cysts, 468

effect of chorionic gonadotropin on transitory zone in mouse, 606

studies on aging processes: effects of estrogen and progesterone on adrenal glands of male and female guinea pigs of various ages, 687

Age

cancer and aging: survey of autopsy records of municipal hospital over 15 year period, 813

effects of high fat diet on joints of aging mice, 828

effects of estrogen and progesterone on thyroid, parathyroid and adrenal glands of male and female guinea pigs of various ages, 687

thickness of media of thoracic aorta in relation to, 183

Amebiasis

pathology of early amebic hepatitis: experimental study, 449

American Leprosy Foundation (Leonard Wood Memorial)

registry of leprosy, 393

Amino Acids

studies in utilization: tissue protein synthesis as influenced by dietary intake of essential amino acids, 709

Aminopterin (4-aminopteroylglutamic acid)

studies on acute toxic effects in dogs, guinea pigs and rabbits: difference in species susceptibility and protective action of folic acid, 787

Amyloidosis

primary cardiovascular: clinical manifestations, pathology and histogenesis, 366

Angioma

retroperitoneal bilateral cavernous lymphangioma in patient with congenital heart disease, 623

Angrist, A. A.

Retroperitoneal bilateral cavernous lymphangioma in patient with congenital heart disease, 623

Anomalies: See under names of organs and regions, as Heart

Antibiotics

role in dissemination of fungus disease, 591

Aorta

atresia, and other cardiac anomalies in newborn, 464

Aorta—Continued

freezing, comparison of arteriosclerotic lesions produced in young and in old rabbits by, 122

thickness of media of thoracic, in relation to age, 183

Appendicitis

Oxyuris and, 483

Appendix

arteritis of, 240

nonspecific periappendical granulomas, 427

Appointments

McManus, J. F. A., 654

Moon, Virgil H., 135

Sheldon, W. F., 654

Armed Forces Institute of Pathology

registry of leprosy, 393

Arteries: See also Aorta; Arteriosclerosis; Blood Pressure, High; Blood Vessels; Periarteritis

arteritis of appendix, 240

coronary: See Coronary Vessels

Arteriosclerosis

comparison of arteriosclerotic lesions produced in young and in old rabbits by freezing aorta, 122

evaluation of choline in prevention of experimental atherosclerosis: importance of changes in body weight, 179

vascular degeneration in hypothyroidism, 765

Arthritis

fellowships for research on, 393

Aspergillosis

Candida and Aspergillus endocarditis: role of antibiotics in dissemination of fungus disease, 591

Atherosclerosis: See Arteriosclerosis

Awards

Howard Taylor Ricketts Medal to S. B. Wolbach, 255

Azides

brain and other lesions caused by poisoning in rats, 545

Bacteria

mycobacteria: demyelination in guinea pig in chronic allergic encephalomyelitis, produced by injecting guinea pig brain in oil emulsion containing variant of Mycobacterium butyricum, 109

Baggenstoss, A. H.

Pancreatic lesions associated with chronic ulcerative colitis, 347

Baldwin, D.

Comparison of arteriosclerotic lesions produced in young and in old rabbits by freezing aorta, 122

Ball, W. P.

Pancreatic lesions associated with chronic ulcerative colitis, 347

Bargen, J. A.

Pancreatic lesions associated with chronic ulcerative colitis, 347

Bauer, J.

Cancer and aging: survey of autopsy records of municipal hospital over 15 year period, 813

Beattie, A. B.

Thrombosis of hepatic veins, 347

Becks, H.

Skeletal changes in severe phosphorus deficiency of rat: tibia, metacarpal bone, costochondral junction, caudal vertebra, 209

Bernhard, W.
Sclerosing lipogranuloma, 296

Beryllium
subcutaneous granuloma, 63

Beveridge, J. M. R.
Hepatic necrosis induced by dietary means: biochemical changes occurring in liver during development of necrosis, 25
Hepatic necrosis induced by dietary means: structural changes occurring in liver during development of necrosis, 1

Bile Ducts
abnormalities: benign neoplasms of extrahepatic biliary ducts; review of literature and report of case of fibroma, 84

Biography
Loeb, Leo, biographical notes on, 661

Biopsy
accuracy of sampling by needle biopsy in diffuse liver disease, 326

Blache, J. O.
Coronary artery disease: comparison of rates and patterns of development of coronary arteriosclerosis in Negro and white races with its relation to clinical coronary artery disease, 189

Blattner, R. J.
Abnormalities in beaks of developing chick embryos: postmortem changes which may be confused with developmental anomalies, 676

Blood Pressure, High
hypertensive cardiovascular disease ("malignant hypertension"): changes in canine tissues induced by various manipulations of kidney, with special reference to vascular and myocardial lesions, 137
possible role of infection in production of periarteritis nodosa in hypertensive rabbits, 98

Blood Vessels: See also Arteries; Cardiovascular System; etc.
degeneration in hypothyroidism, 765

Blumenthal, H. T.
Studies on aging processes in endocrine glands of guinea pig: effects of estrogen and progesterone on thyroid, parathyroid and adrenal glands of male and female guinea pigs of various ages, 687

Boddaert, J.
Testicular interstitial cell tumors in hybrid mice given tri-p-anisyl chloroethylene, 750

Bones
skeletal changes in severe phosphorus deficiency of rat: tibia, metacarpal bone, costochondral junction, caudal vertebra, 209

Book Reviews:
Atlas of Blood and Bone Marrow: R. P. Custer, 237
Grundriss der Allergie—Theorie und Praxis: R. Abderhalden, 136
Menschliche Knochenmark—Seine Anatomie, Physiologie und Pathologie nach Ergebnissen der intravitalen Markpunktion: K. Rohr, 256
Oral and Facial Cancer: B. G. Sarnat and I. Schour, 394
Pathogenesis and Pathology of Viral Diseases: edited by J. G. Kidd, 656
Pathology of Articular and Spinal Diseases: D. H. Collins, 656
Textbook of Bacteriology: J. M. Dougherty, and A. J. Lamberti, 394
Thrombosis in Arteriosclerosis of Lower Extremities: E. A. Edwards, 518
Tissue Culture Technique: G. Cameron, 654

Books Received, 136, 518, 654

Brain: See also Cerebellum
metabolism in vivo: distribution of lesions caused by azide, malononitrile, picrotoxin and dinitrophenol poisoning in rats, 545

Breast
cystic changes, coincident with squamous epithelial cysts in heart of infant, 432

Brittingham, E.
Studies of early uterine carcinomas discovered by cytological examination of vaginal contents, 699

Burns, E. L.
Studies of early uterine carcinomas discovered by cytological examination of vaginal contents, 699

Burstone, M. S.
Studies on effect of radioactive colloidal gold on development of oral structures of mouse, 419

Cancer: See also under names of organs and regions
and aging: survey of autopsy records of municipal hospital over 15 year period, 813
diagnosis: studies of early uterine carcinomas discovered by cytological examination of vaginal contents, 699
experimental: endometrial polyps and hyperplasia produced in aged monkey with estrogen plus progesterone, 721
experimental: metabolite antagonists: guanazolo, 411
seminar at Colorado Springs, 393

Candida: See Moniliasis

Cannon, P. R.
Studies in amino acid utilization: tissue protein synthesis as influenced by dietary intake of essential amino acids, 709

Carbon Tetrachloride
histochemical studies of mouse liver after single feeding of, 519

Carcinoma: See Cancer; and under names of organs and regions

Cardeza, A. F.
Glomerular lesions in diabetic rat, 75

Cardiovascular System: See also Blood Vessels; Heart; etc.
hypertensive disease ("malignant hypertension"): changes in canine tissues induced by various manipulations of kidney, with special reference to vascular and myocardial lesions, 137
primary amyloidosis: clinical manifestations, pathology and histogenesis, 366

Carrera, G. M.
Pathology of early amebic hepatitis: experimental study, 449

Catchpole, H. R.
Changes induced in connective tissue of pubic symphysis of guinea pig with estrogen and relaxin, 233

Cerebellum
disorders in lambs: with comments on ovine neuroanatomy, 36

Chiari's Syndrome
thrombosis of hepatic veins, 247

Chickenpox
varicella pneumonitis: report of case with autopsy observations, 450

Cholesterol
crystalline ester and adult cortical renal tumors, 151

Choline
evaluation in prevention of experimental atherosclerosis; importance of changes in body weight, 179

Chu, P. T.
Benign neoplasms of extrahepatic biliary ducts; review of literature and report of case of fibroma, 84

Clawson, B. J.
Experimental endocarditis with fibrinoid degeneration in heart valves of rats: special reference to fibrinoid, 68

Cod Liver Oil
and vitamin E deficiency, effects on myopathy in mice, 395

Cold
comparison of arteriosclerotic lesions produced in young and in old rabbits by freezing aorta, 122

Coleman, R. D.
Skeletal changes in severe phosphorus deficiency of rat: tibia, metacarpal bone, costochondral junction, caudal vertebra, 209

Colitis
ulcerative, chronic: pancreatic lesions associated with, 347

Congress: See Societies

Copp, D. H.
Skeletal changes in severe phosphorus deficiency of rat: tibia, metacarpal bone, costochondral junction, caudal vertebra, 209

Coronary Vessels
comparison of rates and patterns of development of coronary arteriosclerosis in Negro and white races with its relation to clinical coronary artery disease, 189

Correction
in article by T. Leary entitled "Crystalline Ester Cholesterol and Adult Cortical Renal Tumors" (39: 177 [Aug.] 1950), 517

Crawford, J. D.
Squamous epithelial cysts in heart of infant, with coincident cystic changes in ovaries and breasts, 632

Crossen, R. J.
Endometrial polyps and hyperplasia produced in aged monkey with estrogen plus progesterone, 721

Cryptococcosis: See Histoplasmosis

Cyclopia
pituitary, adrenal and thyroid in, 727

Cysts: See also under names of organs and regions, as Adrenals
squamous epithelial cysts in heart of infant, with coincident cystic changes in ovaries and breasts, 632

Daese, M. R.
Retroperitoneal bilateral cavernous lymphangioma in patient with congenital heart disease, 623

Daily, W. T.
Basal cell carcinoma of labium minus pudendi, 132

Deaths: See Obituaries

Dentition: See Teeth

Diabetes Mellitus
glomerular lesions in diabetic rat, 75

Diercks, F. H.
Immunity in scrub typhus: resistance to induced reinfection, 847

Diet
hepatic necrosis induced by: biochemical changes, 23
hepatic necrosis induced by: structural changes, 1
high fat, effects on joints of aging mice, 828

Dinitrophenol: See Nitrophenol

Dockerty, M. B.
Nonspecific periappendical granulomas, 427

Dubin, I. N.
Range of extracellular hydrogen ion concentration tolerated by macrophages grown in tissue culture, 562

Dutcher, R.
Metabolite antagonists in experimental cancer: guanazolo, 411

Dystrophy, Muscular
myocardial lesions in progressive, 578

Edmonds, H. W.
Pituitary, adrenal and thyroid in cyclopia, 727

Education
cancer seminar, Colorado Springs, 393

Edwards, J. E.
Thickness of media of thoracic aorta in relation to age, 183

Elliott, G. V.
Studies on acute toxic effects of 4-amino-pteroylglutamic acid in dogs, guinea pigs and rabbits: difference in species susceptibility and protective action of folic acid, 787

Ely, J. O.
Effect of adenine on rats, 339

Embryology
abnormalities in beaks of developing chick embryos: postmortem changes which may be confused with developmental anomalies, 676

Encephalomyelitis
chronic allergic: demyelination in guinea pig produced by injecting guinea pig brain in oil emulsion containing variant of Mycobacterium butyricum, 108

Endocarditis
Candida and Aspergillus: role of antibiotics in dissemination of fungus disease, 591
experimental, with fibrinoid degeneration in heart valves of rats, 68
fetal: valvular thrombotic vegetation in newborn, 538

Endocrine Glands
studies on aging processes in guinea pig: effects of estrogen and progesterone on thyroid, parathyroid and adrenal glands of male and female guinea pigs of various ages, 687

Endometrium
endometrial polyps and hyperplasia produced in aged monkey with estrogen plus progesterone, 721

Enzymes
inhibition: brain metabolism in vivo: distribution of lesions caused by azide, malononitrile, plasmocid and dinitrophenol poisoning in rats, 545

Erickson, C. C.
Subcutaneous beryllium granuloma, 63

Eschenbrenner, A. B.
Effect of roentgen rays on testis: quantitative histological analysis following whole body exposure of mice, 734

Estrogens
endometrial polyps and hyperplasia produced in aged monkey with estrogen plus progesterone, 721
and progesterone, effects on thyroid, parathyroid and adrenal glands of male and female guinea pigs of various ages, 687
and relaxin, changes induced in connective tissue of pubic symphysis of guinea pig with, 233

Eyes
abnormalities: See Cyclopia

Fat
effects of high fat diet on joints of aging mice, 828
granulomatous reaction in subcutaneous fat tissues (lipogranuloma), 296

Fellowships
for research on arthritis and rheumatism, 393

Fibroma
benign neoplasms of extrahepatic biliary ducts: review of literature and report of case of fibroma, 84

Fish
polycystic kidney (mesonephros) in goldfish, 440

Fisher, J. H.
Hepatic necrosis induced by dietary means: structural changes occurring in liver during development of necrosis, 1

Foglia, V. G.
Glomerular lesions in diabetic rat, 75

Folic Acid
studies on acute toxic effects of 4-amino-pteroylglutamic acid in dogs, guinea pigs and rabbits: difference in species susceptibility and protective action of folic acid, 787

Foundations
Frank Billings Foundation, Ludvig Hektoen Lecture, 255

Frank, L.
Varicella pneumonitis: report of case with autopsy observations, 450

Frazier, D. B.
Primary cardiovascular amyloidosis: its clinical manifestations, pathology and histogenesis, 366

Frazier, L. E.
Studies in amino acid utilization: tissue protein synthesis as influenced by dietary intake of essential amino acids, 769

Freezing: See Cold

Freund, J.
Demyelination in guinea pig in chronic allergic encephalomyelitis: produced by injecting guinea pig brain in oil emulsion containing variant of Mycobacterium butyricum, 109

Fungus Disease: See Mycosis

Gardner, W. U.
Testicular interstitial cell tumors in hybrid mice given tri-p-anisyl chloroethylene, 750

Genitals
Oxyuris in lesions of female reproductive system and of peritoneum, 490

Gold, Radioactive: See Radioactivity

Goldfish
polycystic kidney (mesonephros) in, 469

Gonadotropins
chorionic, effect on transitory zone of mouse adrenal, 606

Granuloma: See also Lipogranuloma
due to presence of Oxyuris vermicularis (Enterobius vermicularis) and its ova in tissue, 475
nonspecific periappendical, 427
subcutaneous beryllium, 63
sarcoid, of spleen, thrombocytopenic purpura associated with, 778

Grollman, A.
Hypertensive cardiovascular disease ("malignant hypertension"): changes in canine tissues induced by various manipulations of kidney, with special reference to vascular and myocardial lesions, 137

Growth
effects of adenine on rats, 359

Guanazolo
metabolite antagonist in experimental cancer, 411

Gunn, J. A.
Aortic atresia, mitral stenosis, hypoplasia of left ventricle and other cardiac anomalies in newborn, 464

Hall, J. W.
Arteritis of appendix, 240

Halpert, B.
Trichoma: tumor of hair anlage, 199

Handler, F. P.
Cancer and aging: survey of autopsy records of municipal hospital over 15 year period, 813
Coronary artery disease: comparison of rates and patterns of development of coronary arteriosclerosis in Negro and white races with its relation to clinical coronary artery disease, 189

Hartung, W. H., Jr.
Studies of early uterine carcinomas discovered by cytological examination of vaginal contents, 699

Hass, G. M.
Comparison of arteriosclerotic lesions produced in young and in old rabbits by freezing aorta, 122

Heart: See also Cardiovascular System; Coronary Vessels; Endocarditis
abnormalities: aortic atresia, mitral stenosis, hypoplasia of left ventricle and other cardiac anomalies in newborn, 464
abnormalities: retroperitoneal bilateral cavernous lymphangioma in patient with congenital heart disease, 623
myocardial infarcts, localization with respect to muscle bundles of heart, 329
myocardial lesions in progressive muscular dystrophy, 578
squamous epithelial cysts in infant, with coincident cystic changes in ovaries and breasts, 632
valves: See also Mitral Valve
valves: experimental endocarditis with fibrinoid degeneration in, 68
valves: thrombotic vegetation in newborn (fetal endocarditis), 538

Hektoen Lecture of Frank Billings Foundation, 255

Hepatitis
early amebic, pathology: experimental study, 440
severe, in infectious mononucleosis: report of case with minimal clinical manifestations and death due to rupture of spleen, 644

Hicks, S. P.
Brain metabolism in vivo: distribution of lesions caused by azide, malononitrile, plasmocid and dinitrophenol poisoning in rats, 545

Hildebrand, E.
Thrombosis of hepatic veins, 247

Histoplasmosis
partially healed primary lesion in case of generalized histoplasmosis, 457

Hormones: See Estrogens; Gonadotropins

Howard, R. P.
Testis: abnormalities of spermatogenesis: atresia of excretory ducts, 285

Hurst, J. W.
Squamous epithelial cysts in heart of infant, with coincident cystic changes in ovaries and breasts, 632

Hydrogen Ion Concentration
extracellular, range tolerated by macrophages grown in tissue culture, 562

Hypophysis: See Pituitary Body

Hypothermia: See Cold

Infants
newborn: aortic atresia, mitral stenosis, hypoplasia of left ventricle and other cardiac anomalies in newborn, 464
newborn: valvular thrombotic vegetation (fetal endocarditis) in, 538
squamous epithelial cysts in heart, with coincident cystic changes in ovaries and breasts, 632

Infarction: See Heart

Infection
possible role in periarteritis nodosa in hypertensive rabbits, 98

Inhibition, Competitive: See Metabolite Antagonists

Innes, J. R. M.
Cerebellar disorders in lambs: study in animal neuropathology with some comments on ovine neuroanatomy, 36

Interstitial Cells: See Testes

Intestines
lesions, and oxyuriasis, 485

Joints
effects of high fat diet in aging mice, 828

Jones, R. S.
Primary cardiovascular amyloidosis: its clinical manifestations, pathology and histogenesis, 366

Jurisprudence, Medical
medicolegal identification of seminal stains using acid phosphatase test, 395

Kass, E. H.
Severe hepatitis in infectious mononucleosis: report of case with minimal clinical manifestations, and death due to rupture of spleen, 644

Kidneys
changes in canine tissues induced by various manipulations of kidney, with special reference to vascular and myocardial lesions, 137
glomerular lesions in diabetic rat, 75
polycystic, in goldfish, 480
tumors: crystalline ester cholesterol and adult cortical renal tumors, 151
tumors: retroperitoneal bilateral cavernous lymphangioma in patient with congenital heart disease, 623

Kipkie, G. F.
Possible role of infection in production of periarteritis nodosa in hypertensive rabbits, 48

Kohl, F. V.
Skeletal changes in severe phosphorus deficiency of rat: tibia, metacarpal bone, costochondral junction, caudal vertebra, 209

Kountz, W. B.
Vascular degeneration in hypothyroidism, 765

Kunkel, P.
Thrombocytopenic purpura associated with sarcoid granulomas of spleen, 778

Labium Minus Pudendi: See Vulva

Lambs
cerebellar disorders, with comments on ovine neuroanatomy, 36

Leary, T.
Crystalline ester cholesterol and adult cortical renal tumors, 151

Lectures
Ludvig Hektoen Lecture of Frank Billings Foundation, 255

Lee, C. S.
Histochemical studies of mouse liver after single feeding of carbon tetrachloride, 519

Leighton, J.
Squamous epithelial cysts in heart of infant, with coincident cystic changes in ovaries and breasts, 632

Leonard Wood Memorial (American Leprosy Foundation)
registry of leprosy, 393

Leprosy
registry at Armed Forces Institute of Pathology, 393

Ley, H. L., Jr.
Immunity in scrub typhus: resistance to induced reinfection, 847

Lipids: See Cholesterol; Fat

Lipogranuloma
sclerosing, 296

Lipton, M. M.
Demyelination in guinea pig in chronic allergic encephalomyelitis: produced by injecting guinea pig brain in oil emulsion containing a variant of Mycobacterium butyricum, 108

Liver: See also Hepatitis
biopsy: needle, accuracy of sampling by, in diffuse liver disease, 326

Liver—Continued
histochemical studies of mouse liver after single feeding of carbon tetrachloride, 519
necrosis induced by diet: biochemical changes, 23
necrosis induced by diet: structural changes, 1;
registry of hepatic pathology, 255
thrombosis of hepatic veins, 247

Longabaugh, G. M.
Evaluation of choline in prevention of experimental atherosclerosis; importance of changes in body weight, 179

Loeb, Leo
bibliography of writings, 663
biographical notes, 661

Lundquist, F.
Medicolegal identification of seminal stains using acid phosphatase test, 395

Lungs
partially healed primary lesion in case of generalized histoplasmosis, 457

Lymphangioma: See Angioma

McDonald, R. H.
Valvular thrombotic vegetation in newborn (fetal endocarditis), 538

Mackler, W.
Arteritis of appendix, 240

Macrophages: See Phagocytes

Malaria
plasmodium: range of extracellular hydrogen ion concentration tolerated by macrophages grown in tissue culture, 562

Malononitrile
brain and other lesions caused by poisoning in rats, 545

Mancini, R. E.
Glomerular lesions in diabetic rat, 75

Medals: See Awards

Medicine, Legal: See Jurisprudence, Medical

Metabolite Antagonists
brain and other lesions caused by azide, malononitrile, plasmocid and dinitrophenol poisoning in rats, 545
guanazole in experimental cancer, 411

Metacarpus
changes in severe phosphorus deficiency of rat, 209

Miale, J. B.
Aortic atresia, mitral stenosis, hypoplasia of left ventricle and other cardiac anomalies in newborn, 464

Miller, E.
Effect of roentgen rays on testis: quantitative histological analysis following whole body exposure of mice, 736

Mitral Valve
stenosis, and other cardiac anomalies in newborn, 464

Minnich, V.
Studies on acute toxic effects of 4-amino-pteroylglutamic acid in dogs, guinea pigs and rabbits: difference in species susceptibility and protective action of folic acid, 787

Moniliasis
Candida and Aspergillus endocarditis: role of antibiotics in dissemination of fungus disease, 591

Mononucleosis, Infectious
severe hepatitis in: report of case with minimal clinical manifestations and death due to rupture of spleen, 644

Moore, C. V.
Studies on acute toxic effects of 4-amino-pteroylglutamic acid in dogs, guinea pigs and rabbits: difference in species susceptibility and protective action of folic acid, 787

Morrison, L. R.
Demyelination in guinea pig in chronic allergic encephalomyelitis; produced by injecting guinea pig brain in oil emulsion containing variant of Mycobacterium butyricum, 108

Polyps: See under names of organs and regions, as Endometrium

Prizes: See Awards

Progesterone: See Ovary, hormones

Proteins
studies in amino acid utilization: tissue protein synthesis as influenced by dietary intake of essential amino acids, 709

Purines
effect of adenine on rats, 359

Purpura
thrombocytopenic, associated with sarcoid granulomas of spleen, 778

Quinoline and Quinoline Derivatives
brain and other lesions caused by plasmocid poisoning in rats, 545

Races: See Negroes

Radiation: See Roentgen Rays

Radioactivity
effect of radioactive colloidal gold on development of oral structures of mouse, 419

Redd, J. B.
Metabolite antagonists in experimental cancer: guanazolo, 411

Relaxin
changes induced in connective tissue of pubic symphysis of guinea pig with estrogen and, 233

Research
fellowships for research on arthritis and rheumatism, 393

Retirements
Bigger, Joseph W., 393
Leary, Timothy, 654
Winternitz, Milton C., 255

Rheumatism
fellowships for research on arthritis and, 393

Ribs
costochrondal junction, changes in severe phosphorus deficiency of rat, 209

Ricketts Award Lecture, 255, 612

Rickettsial Diseases: See also Tsutsugamushi Disease
rickettsiae and: survey: Howard Taylor Ricketts award lecture, 1950, 612

Robbins, S. L.
Severe hepatitis in infectious mononucleosis: report of case with minimal clinical manifestations, and death due to rupture of spleen, 644

Roentgen Rays
effect on testis: quantitative histological analysis following whole body exposure of mice, 736

Ross, M. H.
Effect of adenine on rats, 259

Rothbard, M. B.
Movement of water in interstitial tissue and in muscle removed from body, 880

Salivary Glands
inclusion disease or generalized virus infection, 862

Sarcoidosis
thrombocytopenic purpura associated with sarcoid granulomas of spleen, 778

Saxton, J. A., Jr.
Cancer and aging: survey of autopsy records of municipal hospital over 15 year period, 813
